REFERENCE DOCUMENT(S)

Per- and polyfluoroalkyl substances (PFAS):

Per- and polyfluoroalkyl substances (PFAS) according to the OECD definition, i.e. substances that contain at least one fully fluorinated methyl or methylene carbon atom (without any H/Cl/Br/I atom attached to it). This includes Perfluorooctanesulfonic acid (PFOA) and its salts, and Perfluorooctane sulfonate (PFOS) and its salts, which are mentioned in the delegated Regulation (EU) 2020/784 amended the POPs Regulation (2019/1021) by way of adding PFOA to Annex I. Previously, substance restrictions regarding PFOA were regulated in (EU) 1907/2006 (REACH), entry no. 68 of Annex XVII).

CONFIRMATION

We herewith confirm that our European product(s) listed above do(es) not contain any of the reportable substances (substances being banned or to be declared) as listed in the above referenced document/s in concentrations above the limits as specified therein, respectively - if there are no concentration limits are specified - in concentrations equal to or above 25 ppb.

We rely on the compositional information as provided to us by our raw material suppliers. Therefore, we do not expect these substances to be present. Analyses of these products if any impurities exist have not been conducted.

In case of any questions, please contact your sales/customer service contact person at Henkel.
