Cleaning and defluxing solvent

PRODUCT DESCRIPTION

Label Remover **DET** has been specially formulated by our laboratory to be a quick and efficient removal of paper based pressure sensitive adhesive labels. DET is 100% Ozone Friendly.

DET has a very large range of application and this product is compatible with a large range of plastics materials.

FEATURES

- Allows label to be simply peeled off without leaving adhesive residue or scratching surface.
- Compatible with most plastics, rubbers, elastomers, and surface coatings when used as directed. Test sensitive plastics on a small area first, and do not use on polystyrene.
- Non-CFC, and non-halogenated solvent.
- DET is a dry solvent, no greasy residues after evaporating.
- Available in cans and bulks.

PRODUCT USE

Spray or wipe on, leave in contact for 5 minutes and then peel off label. Wipe surface clean.

DET contains flammable solvents, so it must not be sprayed directly on turning on electrical equipment or near a heat source.

PROPERTIES

Specific Gravity @ 20°C:	0.79
Inhalation Toxicity:	300 ppm
Flash Point:	0°C
Residue on Evaporation:	<1ppm
Evaporation Rate:	16 (with ether as 1)

PACKAGING

400ml Aerosol with Brush
1 Litre Bulk
5 Litre Bulk
30 Litre Bulk

ORDER CODE

DET 400 B
DET 01L
DET 05L
DET 30L

The DET is compliance with REACH and RoHS regulations. If you want a certificate, please contact us (info@abchimie.com). Please refer to the separate Health & Safety Data Sheet for further details.

STORAGE AND SHELF LIFE:

Storage temperature: 5 to 30°C

A temporary lower temperature during few days (transport) doesn't distort varnish properties.

Date by use: 24 months after the date of manufacturing (12 months in spray)

All information is given in good faith but without warranty. Properties are given as a guide only and should not be taken as a specification. ABchimie cannot be held responsible for the performance of its products within any application determined by the customer, who must satisfy themselves as to the suitability of the product.
