

# SAFETY DATA SHEET

DOW CHEMICAL PHILIPPINES, INC.

**Product name:** SYLGARD™ 184 Silicone Elastomer Base

**Issue Date:** 27.11.2025

**Print Date:** 28.11.2025

DOW CHEMICAL PHILIPPINES, INC. encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

---

## 1. PRODUCT AND COMPANY IDENTIFICATION

---

**Product name:** SYLGARD™ 184 Silicone Elastomer Base

**Recommended use of the chemical and restrictions on use**

**Identified uses:** Corrosion inhibitors Electrical industry and electronics

**COMPANY IDENTIFICATION**

DOW CHEMICAL PHILIPPINES, INC.  
CAA ROAD, AGUILAR AVENUE  
PAMPLONA  
1740 LAS PINAS CITY  
PHILIPPINES

**Customer Information Number:**

+632 8981 4450 TO 51

SDSQuestion@dow.com

**Fax:**

+63 2 874 0178

**EMERGENCY TELEPHONE NUMBER**

**24-Hour Emergency Contact:** (+63) 2-8-551 0483

**Local Emergency Contact:** (+63) 2-8-551 0483

---

## 2. HAZARDS IDENTIFICATION

---

**GHS Classification**

This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

**Other hazards**

No data available

---

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

This product is a mixture.

Contains no hazardous ingredients according to GHS

---

## 4. FIRST AID MEASURES

---

### Description of first aid measures

#### General advice:

First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.

**Inhalation:** Move person to fresh air and keep comfortable for breathing; consult a physician.

**Skin contact:** Wash off with plenty of water.

**Eye contact:** Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.

**Ingestion:** Rinse mouth with water. No emergency medical treatment necessary.

#### Most important symptoms and effects, both acute and delayed:

Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

#### Indication of any immediate medical attention and special treatment needed

**Notes to physician:** No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Skin contact may aggravate preexisting dermatitis.

---

## 5. FIREFIGHTING MEASURES

---

### Extinguishing media

**Suitable extinguishing media:** Alcohol-resistant foam. Carbon dioxide (CO<sub>2</sub>). Dry chemical. Water spray.

**Unsuitable extinguishing media:** None known..

### Special hazards arising from the substance or mixture

**Hazardous combustion products:** Silicon oxides. Carbon oxides.

**Unusual Fire and Explosion Hazards:** Exposure to combustion products may be a hazard to health..

### Advice for firefighters

**Fire Fighting Procedures:** Use water spray to cool unopened containers.. Evacuate area.. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations..

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Remove undamaged containers from fire area if it is safe to do so.

**Special protective equipment for firefighters:** Wear self-contained breathing apparatus for firefighting if necessary.. Use personal protective equipment..

---

## 6. ACCIDENTAL RELEASE MEASURES

---

**Personal precautions, protective equipment and emergency procedures:**

Follow safe handling advice and personal protective equipment recommendations.

**Environmental precautions:** Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

**Methods and materials for containment and cleaning up:** Soak up with inert absorbent material. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container.

See sections: 7, 8, 11, 12 and 13.

---

## 7. HANDLING AND STORAGE

---

**Precautions for safe handling:** Take care to prevent spills, waste and minimize release to the environment. Handle in accordance with good industrial hygiene and safety practice. CONTAINERS MAY BE HAZARDOUS WHEN EMPTY. Since emptied containers retain product residue follow all (M)SDS and label warnings even after container is emptied.

Use only with adequate ventilation. See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.

**Conditions for safe storage:** Keep in properly labelled containers. Store in accordance with the particular national regulations.

Do not store with the following product types: Strong oxidizing agents.  
Unsuitable materials for containers: None known.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

**Control parameters**

If exposure limits exist, they are listed below. If no exposure limits are displayed, then no values are applicable.

**Exposure controls**

**Engineering controls:** Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

**Individual protection measures**

**Eye/face protection:** Use safety glasses (with side shields).

**Skin protection**

**Hand protection:** Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur. Examples of preferred glove barrier materials include: Butyl rubber. Natural rubber ("latex"). Neoprene. Nitrile/butadiene rubber ("nitrile" or "NBR"). Ethyl vinyl alcohol laminate ("EVAL"). Polyvinyl chloride ("PVC" or "vinyl"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

**Other protection:** Wear clean, body-covering clothing.

**Respiratory protection:** Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. For most conditions, no respiratory protection should be needed; however, if material is heated or sprayed, use an approved air-purifying respirator. The following should be effective types of air-purifying respirators: Organic vapor cartridge with a particulate pre-filter.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

### Appearance

|                                        |                                           |
|----------------------------------------|-------------------------------------------|
| Physical state                         | liquid                                    |
| Color                                  | colourless                                |
| Odor                                   | slight                                    |
| Odor Threshold                         | No data available                         |
| pH                                     | No data available                         |
| Melting point/ range                   | No data available                         |
| Freezing point                         | No data available                         |
| Boiling point (760 mmHg)               | > 100 °C                                  |
| Flash point                            | <b>Pensky-Martens closed cup 121.1 °C</b> |
| Evaporation Rate (Butyl Acetate = 1)   | No data available                         |
| Flammability (solid, gas)              | Not applicable                            |
| Flammability (liquids)                 | Not applicable                            |
| Lower explosion limit                  | No data available                         |
| Upper explosion limit                  | No data available                         |
| Vapor Pressure                         | No data available                         |
| Relative Vapor Density (air = 1)       | No data available                         |
| Relative Density (water = 1)           | 1.11                                      |
| Water solubility                       | No data available                         |
| Partition coefficient: n-octanol/water | No data available                         |

|                           |                                                          |
|---------------------------|----------------------------------------------------------|
| Auto-ignition temperature | No data available                                        |
| Decomposition temperature | No data available                                        |
| Kinematic Viscosity       | 5000 cSt at 25 °C                                        |
| Explosive properties      | Not explosive                                            |
| Oxidizing properties      | The substance or mixture is not classified as oxidizing. |
| Liquid Density            | 1.11 g/cm <sup>3</sup>                                   |
| Molecular weight          | No data available                                        |
| Particle size             | not applicable                                           |

NOTE: The physical data presented above are typical values and should not be construed as a specification.

---

## 10. STABILITY AND REACTIVITY

---

**Reactivity:** Not classified as a reactivity hazard.

**Chemical stability:** Stable under normal conditions.

**Possibility of hazardous reactions:** Can react with strong oxidizing agents.

**Conditions to avoid:** None known.

**Incompatible materials:** Avoid contact with oxidizing materials.

**Hazardous decomposition products:**

Decomposition products can include and are not limited to: Formaldehyde.

---

## 11. TOXICOLOGICAL INFORMATION

---

*Toxicological information appears in this section when such data are available.*

**Information on likely routes of exposure**

Inhalation, Eye contact, Skin contact, Ingestion.

**Acute toxicity (represents short term exposures with immediate effects - no chronic/delayed effects known unless otherwise noted)**

**Acute Toxicity Endpoints:**

Not classified based on available information.

**Acute oral toxicity**

**Information for the Product:**

Harmful effects not anticipated from swallowing small amounts. Very low toxicity if swallowed.

As product: Single dose oral LD50 has not been determined.

Based on information for component(s):

LD50, > 5,000 mg/kg Estimated.

#### **Acute dermal toxicity**

##### **Information for the Product:**

Prolonged skin contact is unlikely to result in absorption of harmful amounts.

As product: The dermal LD50 has not been determined.

Based on information for component(s):  
LD50, > 2,000 mg/kg

#### **Acute inhalation toxicity**

##### **Information for the Product:**

Brief exposure (minutes) is not likely to cause adverse effects. Vapor from heated material or mist may cause respiratory irritation.

As product: The LC50 has not been determined.

#### **Skin corrosion/irritation**

Not classified based on available information.

##### **Information for the Product:**

Based on information for component(s):  
Brief contact is essentially nonirritating to skin.  
May cause drying and flaking of the skin.

#### **Serious eye damage/eye irritation**

Not classified based on available information.

##### **Information for the Product:**

Based on information for component(s):  
May cause slight temporary eye irritation.

#### **Sensitization**

##### **For skin sensitization:**

Not classified based on available information.

##### **For respiratory sensitization:**

Not classified based on available information.

##### **Information for the Product:**

For skin sensitization:  
Contains component(s) which did not cause allergic skin sensitization in guinea pigs.

For respiratory sensitization:

No relevant data found.

**Specific Target Organ Systemic Toxicity (Single Exposure)**

Not classified based on available information.

**Information for the Product:**

Product test data not available.

**Aspiration Hazard**

Not classified based on available information.

**Information for the Product:**

Based on physical properties, not likely to be an aspiration hazard.

**Chronic toxicity (represents longer term exposures with repeated dose resulting in chronic/delayed effects - no immediate effects known unless otherwise noted)**

**Specific Target Organ Systemic Toxicity (Repeated Exposure)**

Not classified based on available information.

**Information for the Product:**

Product test data not available.

**Carcinogenicity**

Not classified based on available information.

**Information for the Product:**

Product test data not available.

**Teratogenicity**

Not classified based on available information.

**Information for the Product:**

Product test data not available.

**Reproductive toxicity**

Not classified based on available information.

**Information for the Product:**

Product test data not available.

### Mutagenicity

Not classified based on available information.

#### Information for the Product:

Product test data not available.

---

## 12. ECOLOGICAL INFORMATION

---

*Ecotoxicological information appears in this section when such data are available.*

### Ecotoxicity

#### Information for the Product:

Product test data not available.

### Persistence and degradability

#### Information for the Product:

Product test data not available.

### Bioaccumulative potential

#### Information for the Product:

Product test data not available.

### Mobility in Soil

#### Information for the Product:

Product test data not available.

### Results of PBT and vPvB assessment

#### Information for the Product:

Product test data not available.

### Other adverse effects

#### Information for the Product:

Product test data not available.

---

### 13. DISPOSAL CONSIDERATIONS

---

**Disposal methods:** DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility of the waste generator. AS YOUR SUPPLIER, WE HAVE NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN SDS SECTION 1: Identified Uses. FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Recycler. Reclaimer. Incinerator or other thermal destruction device.

---

### 14. TRANSPORT INFORMATION

---

**Classification for ROAD and Rail transport:**

Not regulated for transport

**Classification for SEA transport (IMO-IMDG):**

Not regulated for transport

**Transport in bulk  
according to Annex I or II  
of MARPOL 73/78 and the  
IBC or IGC Code**

Consult IMO regulations before transporting ocean bulk

**Classification for AIR transport (IATA/ICAO):**

Not regulated for transport

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

---

### 15. REGULATORY INFORMATION

---

**Philippines Inventory of Chemicals and Chemical Substances (PICCS)**

All intentional components are listed on the inventory, are exempt, or are supplier certified.

**Chemical Control  
Order (CCO)** : Not applicable

Priority Chemical List : Not applicable  
(PCL)

---

## 16. OTHER INFORMATION

---

### Revision

Identification Number: 1023993 / 1810 / Issue Date: 27.11.2025 / Version: 5.0

In case this version of the SDS contains significant changes from the previous version, they are listed below or noted by bold, double bars in the left-hand margin throughout this document.

Changes encompass identification, hazards, tox/eco-tox information and the addition/removal of the ingredients, and regulatory information, hazard information, uses, risk management measures and other key regulatory changes of the product. Detailed explanation of the changes can be obtained upon request.
